Hi team,

A very quick note to formally convey my approval to proceed with this project with the TIP Office.

I'm especially pleased the way things have worked out for you in this regard.

Thank you!

pjn

Hello everyone,

A short note to follow up from the last class re your applied Agile Team Project.

I'm interested to know if you have settled on an idea yet which you could propose for approval?

If so, I have posted a Project Approval Request Form in the Week#3-SEP22 ticket
in Kanboard today which you can complete as a next step.

This form is in .doc format for editing and can be downloaded now.

As well, we'll soon need to know how each team is planning to organize itself
to effectively complete its project in the short 8-week time frame that is available.
Please give this some thought, if you have not already done so.

Probably, I'll have more to say about this on Thursday night.

In the interim, if you are looking for advice in this regard at any time,
don't hesitate to let me know.

Thank you,

pjn
